Technologies: Windows, Android, Microsoft SQL Server

Computer Skills: Microsoft Office: basic Word, Excel, PowerPoint, and Outlook

Languages

English – good command
Zulu – Native

Hobbies

- Coding
- Chess
- Video games
- Sports

Profile

I enjoy learning new technologies, solving problems, and coming up solutions in a timely manner. I thrive in team environments, and my ability to effectively communicate with others is what drives my ability to solve a wide range of problems. I'm very motivated and excited about creating software that solves everyday or business problems. Aside from coding, I enjoy spending time with my family, playing chess, soccer, video games, and going out.

Education

2018 - 2021

Bachelor of Science: **Computer Science and Information Technology**

University of KwaZulu-Natal, Durban

Coursework: Data Structures (Java), Object-Oriented Programming, Databases and programming, Systems analysis and design, Networks and database management, Computer Systems, Theory of Computation, Project Management.

Projects

2020

E-commerce web application (Final year Major project)

- Collaborated with a team of five students to develop a point of sales system in C# ASP.net and MySQL.
- Updated and organized database to ensure that the data records are stored correctly and accurately.
- Led the demonstration of the system in the final presentation and ended up scoring 82% for the project.

Portfolio website

- Designed and developed my website in Html, CSS, and JavaScript.
- Successfully identified, diagnosed, and fixed website problems including broken links, typographical errors, and formatting issues.
- Remained knowledgeable in new standards, technologies, and trends in website development
- Successfully uploaded the project on git and deployed it on: ntethelelo.netlify.com

Soft Skills

- Good communication
- Multitasking
- Ability to work in teams and on my own
- Attention to detail
- Problem solving
- Ability to handle pressure
